

## Process analysis and flow measurement with ultrasound

### Features

- Time measurement for the accurate and repeatable determination of concentration, density and density-related physical quantities
- Certification: ATEX/IECEX zone 1, FM Class I Div. 1+2
- Flameproof/explosion proof housing for hazardous areas
- Intrinsic safe process inputs for the integration of external pressure and temperature sensors
- Bidirectional communication and support of common bus technologies (Profibus PA, Foundation Fieldbus, HART, Modbus, BACnet)
- Two measuring channels

### Applications

For a wide range of fluids, e.g.  $H_2SO_4$ , HF, HCl,  $HNO_3$ , sugar solution (Brix), brine in:

- Chemical industry, petrochemical industry, oil and gas industry, pharmaceutical industry, semiconductor industry, mechanical and electrical industries, food industry

# Transmitter

<sup>1</sup> with aperture calibration of the transducers

<sup>2</sup> for transit time difference principle and reference conditions

<sup>3</sup> outside the explosive atmosphere (housing cover open)

## Physical quantities

The available physical quantities depend on the fluid data set in the transmitter.

| fluid data set | physical quantities       | remark  |
|----------------|---------------------------|---|
| NN             | no fluid data set         | • sound speed, volumetric flow rate   |
| MD             | standard fluid data set   | • analysis <sup>1</sup> : concentration, mass fraction, volume fraction, density, normalised density, normalised sound speed, sound speed<br>• flow: volumetric flow rate, flow velocity, mass flow rate  |
| CU             | customised fluid data set | • analysis <sup>1</sup> : concentration, mass fraction, volume fraction, density, normalised density, normalised sound speed, sound speed<br>• flow: volumetric flow rate, flow velocity, mass flow rate<br>• further customised physical quantities <sup>1</sup> |

<sup>1</sup> min. 1 input or process interface with inputs necessary for fluid temperature

### Dimensions

#### \*831 (aluminum housing)

#### \*831 (stainless steel housing)

## Wall and 2" pipe mounting kit

### \*831 (aluminum housing)

### \*831 (stainless steel housing)

## Storage

- do not store outdoors
- store within the original package
- store in a dry and dust-free place
- protect against sunlight
- keep all openings closed
- storing temperature:
  - aluminum housing: -40...+60 °C
  - stainless steel housing: -20...+60 °C

### Terminal assignment
